

# Subtract Ten

**Materials:** Base 10 blocks

---

1. Represent 92 with Base 10 blocks.
2. Remove 10. Record a subtraction equation.
3. Continue subtracting 10 until you reach 12. Record an equation each time you subtract 10.
4. What patterns do you notice?
5. Choose another 2-digit number between 75 and 89. Represent the number with Base 10 blocks. Subtract ten until you get as close to zero as possible.
