

# Subtract from Ten

I know that 10 minus \_\_\_ equals \_\_\_ because \_\_\_ plus \_\_\_ equals 10.

**Materials:** Counters in two different colors, numeral cards 1-10

**Number of Players:** 2

**Directions:** Take turns to turn over a card and subtract the number shown from 10. Say and write the subtraction fact by thinking of a related addition fact. Cover the difference on the board. Keep taking turns until all of the numbers on the board have been covered. Count how many counters you each used. The winner is the player with the most counters on the board.

7	8	1	2
0	6	5	6
9	6	4	8
7	9	4	5
3	0	2	1

I know that 10 minus \_\_\_  
equals \_\_\_ because \_\_\_  
plus \_\_\_ equals 10.

I know that 10 minus \_\_\_  
equals \_\_\_ because \_\_\_  
plus \_\_\_ equals 10.

I know that 10 minus \_\_\_  
equals \_\_\_ because \_\_\_  
plus \_\_\_ equals 10.

I know that 10 minus \_\_\_  
equals \_\_\_ because \_\_\_  
plus \_\_\_ equals 10.
