

# Domino Addition

$$4 + 0 = 4 \quad 1 + 3 = 4 \quad 2 + 2 = 4$$

**Materials:** dominoes, numeral cards (1-12)

---

1. Choose a numeral card (1-12).
2. How many different dominoes can you find with this number of dots?
3. Draw each domino you find. Write an addition equation to show how many dots on each side of the domino and how many dots in all.
4. Repeat with a different numeral card.

I found \_\_\_\_  
dominoes with \_\_\_\_  
dots in all.
