

Make Ten Bundles

Hundreds	Tens	Ones
		

Materials: craft sticks (or straws), rubber bands, dice, place value mat

1. Roll two dice and find the sum. Place that number of sticks in the ones column on your place value mat.
2. Keep rolling the dice and adding sticks to the ones column until you have enough to make a bundle of ten. Wrap a rubber band around the sticks and place the bundle in the tens column.
3. Continue rolling and bundling until you can make a bundle of one hundred with ten bundles of ten.

Challenge: As you play record the numbers rolled on the dice and the totals at the end of each turn.
