

# Roll Three Digits

**Materials:** three dice, two dry erase markers in different colors

---

1. Work with a partner. Take turns to roll three dice and arrange them to make a three-digit number. Say the number aloud.
2. Write the number in the rectangle below that describes it. Explain your thinking.
3. Keep playing until one player has written three numbers in each of three different rectangles.

**Between 100 and 200**
