## Make 100

Materials: set of numeral cards (0-9), Tens and Ones boards

1. Work with a partner. Shuffle the numeral cards and place them facedown in a pile.
2. Take turns to turn over a numeral card and decide where to place it on your Tens and Ones board. Your goal is to build three 2-digit numbers that have a sum close to 100.
3. Continue until you both have three 2-digit numbers on your board.
4. Add your three 2-digit numbers. The player whose sum is closest to 100 scores one point for the round.
5. The first player to reach 5 points wins the game.

The sum of $\qquad$ and ___ is __. The difference between and 100 is

The sum of $\qquad$ , and ___ is __. The difference between and 100 is $\qquad$

The sum of and $\qquad$ is _. The difference between and IOO is $\qquad$ .

The sum of $\qquad$ , and ___ is __. The difference between and 100 is $\qquad$
