

One Hundred Hungry Ants

Materials: copy of *One Hundred Hungry Ants* by Elinor J. Pinczes, counters

1. After listening to the story *One Hundred Hungry Ants*, solve the problem below using one of the following numbers: 12, 24, or 36.

**Suppose that this number of ants were going on a picnic.
How many different ways could the ants arrange themselves
in equal rows?**

2. Draw an array and write an equation to represent each solution.
3. How many different solutions did you find? How do you know that you have found all the possible solutions for the number you chose?
