

## 5.NBT Which number is it?

### Task

Netta drew a picture on graph paper:

She said,

*In my picture, a big square represents 1. Since ten rectangles make a big square, a rectangle represents 0.1. Since 100 little squares make a big square, a little square represents 0.01. So this picture represents 2.43.*

a. Is Netta Correct?

Manny said,

*I drew the same picture, but in my picture, a little square represents 1, so this picture represents 243.*

b. Name some other numbers that this picture could represent. For each of these numbers, what does a little square represent? What does a rectangle represent? What

does a big square represent? Explain.

c. Draw a picture to represent 0.047.
