

6.RP Exam scores

Task

Alyssa took a math test with 20 questions and she answered 16 questions correctly. In order to get an A, she needs to answer at least 90 percent of the questions correctly.

- a. Did Alyssa get an A on this math test? Explain.
- b. How many questions would Alyssa need to answer correctly in order to get an A?
- c. On the same exam, Alyssa's friend Jessie answered three times more questions correct than incorrect. Who got a higher percentage of the test questions correct, Alyssa or Jessie?
