

Who Has More?

Materials: number cubes, counters

1. Partner A: Roll a number cube. Count out a set of counters to match the number you rolled.
2. Partner B: Roll a number cube. Count out a set of counters to match the number you rolled.
3. Compare your sets of counters.  
4. The player with the greater number of counters takes both sets of counters and uses the math talk sentence.
5. After 5 rounds count how many counters you each have. Who has more?

___ is more than
___.

___ is greater
than ___.

___ is more than
___.

___ is greater
than ___.
